

A LEADING TECHNOLOGY FOR MORE THAN 30 YEARS

Res-Tek, Inc., the only U.S. company dedicated to the exclusive manufacturing of acrylic flooring systems, is proud to add a world-class polyurethane concrete to their product portfolio. PUR-Guard™ has been developed based upon 30+ years of polyurethane flooring technology.

PUR-Guard was designed to be the choice alternative to acid brick, quarry tile, and coatings for areas that require high performance, durability, and cleanliness. Res-Tek PUR-Guard floors withstand thermal shock / cycling, and are heavy duty and chemical resistant. This self-priming flooring system is ideal for food and beverage processing facilities, wet & dry process zones, laboratories, chemical processing plants, storage areas, and thermal shock areas.

Res-Tek offers four products within our PUR-Guard Series.

- **HD-T** Heavy Duty Trowel
- **HD-CB** Heavy Duty Cove Base
- **HD-SL** Heavy Duty Self-Leveling
- **HD-TC** Heavy Duty Top Coat

Available in four standard colors.

- Grey
- Light Grey
- Red
- Beige

Res-Tek's PUR-Guard is formulated to be mixed with specific bagged aggregate for creating a self-leveling slurry or trowel applied mortar with application thicknesses from 1/8" to 3/8".

ENVIRONMENTAL COMPATIBILITY

The finished system is considered non-hazardous to health and the environment. Like all Res-Tek products, PUR-Guard meets the USDA requirements for incidental food contact. Additionally, environmental and health considerations are controlled during manufacturing and application of PUR-Guard by Res-Tek's staff and our fully-trained, experienced, and certified contractors.

BENEFITS OF A PUR-GUARD FLOORING SYSTEM

- Minimal maintenance costs
- Withstands thermal shock / cycling
- Extraordinary chemical resistance
- Heat resistant to 240° F
- Non-dusting
- High abrasion resistance
- High impact resistance
- Virtually no odor during application
- Slip resistant
- Efficient installation
- Self-priming
- VOC Compliant

INSTALLATION & SERVICE

Res-Tek provides extended life for floors and surfaces with our full-line of durable, long-lasting flooring systems. Our commitment to supplying our systems only to Res-Tek approved and trained applicators guarantees the highest level of quality and consistency. All Res-Tek products are designed, manufactured, and supplied by our exceptional team that hold more than forty years of combined experience in the industrial flooring industry. All of which ensures that every Res-Tek system offers competitive, turnkey solutions.

Aftercare - Cleaning and Maintenance

PUR-Guard is an easy to maintain flooring system. Simply clean on a routine basis using a single or double-headed rotary scrubber combined with a mild alkaline detergent.

WARRANTY

RES-TEK INC. WARRANTS THAT MATERIALS SHIPPED TO BUYERS ARE FREE OF ANY DEFECTS IN MATERIAL OR WORKMANSHIP ACCORDING TO RES-TEK'S PUBLISHED DATA IF USED IN ACCORDANCE WITH RES-TEK'S SPECIFIED APPLICATION PROCEDURE. RES-TEK INC. SHALL NOT BE RESPONSIBLE FOR ANY CLAIM RESULTING FROM FAILURE TO UTILIZE PRODUCT IN THE MANNER IN WHICH IT WAS INTENDED, AND IN ACCORDANCE WITH RES-TEK'S APPLICATION GUIDELINES. RES-TEK INC. HAS NO RESPONSIBILITY FOR APPLICATION AND PROCESSING OF PRODUCTS.

Prior to working with any Res-Tek, Inc. products, you should always read and follow the warnings and installation instructions on the product's most recent data sheet, product label, and Material Safety Data Sheet. You can obtain these items at www.Res-Tek.net or by calling Res-Tek at 888.ResTek-1 (888.737-8351)
