## **SECTION 4: FIRST AID MEASURES**

### Description of first aid measures

Inhalation Remove victim to fresh air and keep at rest in a position comfortable for

breathing. If breathing is labored, administer oxygen. If experiencing

respiratory symptoms: Call a POISON CENTER/doctor.

Skin Contact Take off immediately all contaminated clothing. Rinse skin with

water/shower. If irritation (redness, rash, blistering) develops, get medical

attention. Wash contaminated clothing before reuse.

Eye Contact Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. If eye irritation persists, get

medical advice/attention.

Date: January 26, 2016 Page: 2/7

Ingestion Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician.

Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction. May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Indication of any immediate medical attention and special treatment needed

IF SWALLOWED: Immediately call a POISON CENTER/doctor.

### **SECTION 5: FIRE-FIGHTING MEASURES**

#### **Extinguishing Media**

-Suitable Extinguishing Media Extinguish with water spray, dry chemical, sand or carbon dioxide.
-Unsuitable Extinguishing Media None anticipated.

Special hazards arising from the substance or mixture

In event of a spill, evacuate danger area. Water contamination of product will cause generation of carbon dioxide. Reacts vigorously with water at temperatures above 50 °C. Polymeric MDI decomposes rapidly above 204°C. Closed containers may rupture violently when heated. Forms: carbon monoxide,carbon dioxide, hydrogen cyanide, 4,4'-methylene dianiline, and nitrogen oxides.

Advice for fire-fighters Fire fighters should wear complete protective clothing including self-

contained breathing apparatus.

## **SECTION 6: ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures

Eliminate all ignition sources if safe to do so. Put on protective equipment before entering danger area. Wear protective gloves/protective clothing/eye

protection/face protection. In case of inadequate ventilation wear respiratory

protection.

Environmental precautions Contain spillages with sand, earth or any suitable adsorbent material. Do not

allow to enter drains, sewers or watercourses.

Methods and material for containment and

cleaning up

Contain spillages with sand, earth or any suitable adsorbent material.

Transfer to a container for disposal or recovery. Wash the spillage area with

water. If possible prevent water running into sewers.

## **SECTION 7: HANDLING AND STORAGE**

Precautions for safe handling Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No

smoking. Take precautionary measures against static discharge. Ground/bond container and receiving equipment. Use only non-sparking tools. Use explosion-proof electrical / ventilating / lighting / equipment. Keep container tightly closed. Wear protective gloves/protective clothing/eye protection/face protection. Wash hands and exposed skin after use. Do not breathe

dust / fume / gas / mist / vapors / spray. Contaminated work clothing should not be allowed out of the workplace. Work in well ventilated zones or use proper respiratory protection.

Conditions for safe storage, including any incompatibilities

-Storage temperature Store at room temperature. Keep container tightly closed and in a well-ventilated place. Keep

away from heat and sources of ignition.

-Incompatible materials Strong oxidising agents and amines. Water, acids, bases, amines, alcohols, organotin catalysts,

amides, phenols, mercaptans, urethanes, ureas, sufactants and detergents, and metal

compounds. All can react vigorously and violently with this material.
