Exposure controls

Appropriate engineering controls

Control dust formation. Use adequate general or local exhaust ventilation to maintain concentrations in the workplace below the applicable exposure limits.

Personal protection equipment

Eye/face protection

Safety Glasses, tight fitting goggles.

Skin protection (Hand protection/ Other)

Respiratory protection

Protective gloves and protective clothing

Inhalable size dust particles may be released under certain conditions of handling. Respiratory protection may be needed if occupational exposure limits are exceeded. Air-purifying respirator with particulate filter may be sufficient. Check with protective equipment manufacturer's data. Positive-pressure supplied air respirators may be required for high airborne contaminated concentrations. Not normally required.

Thermal hazards

Environmental Exposure Controls

Not normally required.
